

30 MGY Biodiesel Production Plant

Technical Specifications:

Feedstocks – Plant Oils and Animal Fats
Capacity – 30 MGY (2 – 15 MGY reactor lines)
Water wash and acid wash Processing
Presently Processing Choice White Grease

Continuous Flow Process
High Shear Reactors - Vacuum Evaporators
Storage Capacity 750,000 gallons
Status – Operating

AEC Provides Design, Build and Operating Solutions for Renewable Fuels and Green Energy Projects
